After digging fresh plants each day there is usually some overrun after filling the day's orders, as it is not possible to dig exactly the required number. These plants are not kept over from day to day and are from our choicest varieties and are offered for sale at \$3.50 per thousand. We do not label them nor furnish selected varieties but merely dispose of the surplus stock that is on hand at the time. When ordering such stock, ask for surplus plants.

1. Postage MUST BE INCLUDED ON PARCEL POST Orders. Quantities of 500 plants or over sent express collect.

2. Terms: Cash with the order.

3. Set plants early. Late settings are not dependable.

Weight of strawberry plants approximately 4 lbs. per 100.

As plants are very scarce this year, please state second choice so that your order may be filled without delay, as some varieties will be sold out early.
